

CHILDREN'S RIGHTS POLICY

Children are the entrusted future of our world. Recognizing them as individuals, respecting their rights, and safeguarding them against all forms of psychological, physical, commercial, and other forms of exploitation is our foremost responsibility.

To ensure this:

- We do not permit child labor within our organization, and we expect the same sensitivity from all our business partners.
- Within our premises, we provide environments and opportunities that support children's development, where they can freely express their thoughts, wishes, and feelings, and feel safe and comfortable.
- We provide training to our employees on the prevention and identification of child abuse.
- We ensure that children are always under adult supervision during any activities in which they participate.
- We organize training programs and support relevant projects to raise awareness about the protection of children's rights.
- When we witness any suspicious actions involving children, we immediately inform hotel management and, if necessary, seek assistance from the relevant authorities.
