

SUSTAINABLE PROCUREMENT POLICY

- In line with our sustainable procurement approach, we expect our suppliers/partners to:
- Have Quality Assurance Management Systems, Environmental and Occupational Health & Safety Management Systems, and internationally recognized environmental and sustainability certifications/ethics.
- Ensure that their production and supply processes do not harm the environment and comply with environmental regulations.
- Use resources responsibly, without harming wildlife and ecosystems, and comply with hunting bans.
- Work to minimize waste and manage it properly, offering options for less packaging or bulk packaging alternatives.
- Provide environmentally friendly, energy-efficient, local, ethical, recyclable or recycled material alternatives, and products that are organic, bio, vegan, cruelty-free, and free from harmful chemical components.
- Be local and domestic producers/service providers.
- Offer products/services that reflect and promote our country's/region's cuisine, traditions, and culture.
- Share this perspective with our stakeholder suppliers.
- Work together with us to create efficient purchasing opportunities and aim to reduce the environmental impact of procurement processes.
